

OUR SUPERIOR PROCESS, combined with our superior cleaning solution, allows us to proudly stand behind our ultrasonic cleaning for **one year from the date of service, regardless of the number of hours or miles put on your engine.** All ultrasonically cleaned Diesel Particulate Filters will receive unlimited free cleanings for twelve months from the date of your original cleaning, as long as you continue to own that vehicle or piece of equipment.

OUR PROMISE stands strong for all vehicle owners who follow the required manufacturer's maintenance schedule, and is only void if your filter becomes contaminated by oil and/or fuel, is cleaned or serviced by any non-DPF Alternatives service center, or is damaged in any way such that it is no longer a properly functioning filter. **Let DPF Alternatives offer you worry free driving and equipment operation.**
